

Part 653 - Stream Corridor Restoration Principles, Processes, and Practices

Part 653 - Stream Corridor Restoration: Principles, Processes, and Practices

Note: Due to large file sizes, some links may upload slowly. If this occurs, right-click on the link and select "save target as" to download the PDF file to your computer or drive.

Select the entire National Engineering Handbook, Part 653, Stream Corridor Restoration: Principles, Processes, and Practices, to [download whole document](#) here.

Or, select these components, to download them individually:

[Cover](#)

[Acknowledgements](#)

[Introduction](#)

[Part I](#), Background

[Chapter 1](#), Overview of Streams

[Chapter 2](#), Stream Corridor Processes, Characteristics, and Functions

[Chapter 3](#), Disturbance Affecting Stream Corridors

[Part II](#), Developing a Restoration Plan

[Chapter 4](#), Getting Organized and Identifying Problems and Opportunities

[Chapter 5](#), Developing Goals, Objectives, and Restoration Alternatives

[Chapter 6](#), Implementing, Monitoring, Evaluating, and Adapting

[Part II](#), Applying Restoration Principles

[Chapter 7](#), Analysis of Corridor Condition

[Chapter 8](#), Restoration Design

[Sections 8A through 8E](#)

[Sections 8F through 8H](#)

[Chapter 9](#), Restoration, Implementation, Monitoring, and Management

[Appendixes](#) (Appendix A, Techniques, and Appendix B, U.S./Metric Conversion Factors)
